National health care legislation will affect your business.

Find out how at the 2009 NH Health Care Summit.

Hear several expert speakers from NH's health care community as they explore what's next for the Granite State in the wake of the upcoming national health care legislation. If Congress approves the bill, what does that mean for NH businesses, hospitals and insurers, and, conversely, if they vote against it, what does that mean?

Program includes:

- Dr. James W. Squires, founding president, Endowment for Health
- Steve Norton, executive director, NH Center for Public Policy Studies
- Ned Helms, executive director, NH Citizens Health Initiative
- A panel discussion with NH business leaders, hospitals, insurers and health care focused community organizations

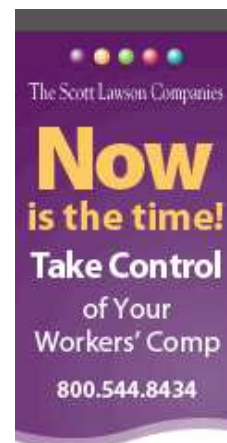

Who should attend:

Business owners, managers, HR professionals, health care providers, insurance brokers, hospital administrators, doctors, pharmacists, medical personnel and government officials.
